

LINKING YOUR ORCID ID TO YOUR FUNDFIT PROFILE

FundFit will automatically pull in any data from Streamlyne for your proposals and awards, but if you are new to the university or you do not have much in Streamlyne yet, the best way to give FundFit the data that it needs to function is by linking your ORCID iD to your FundFit profile.

To get started, click on the **Account** button at the top of the screen, and click **Profile** from the menu that pops up.

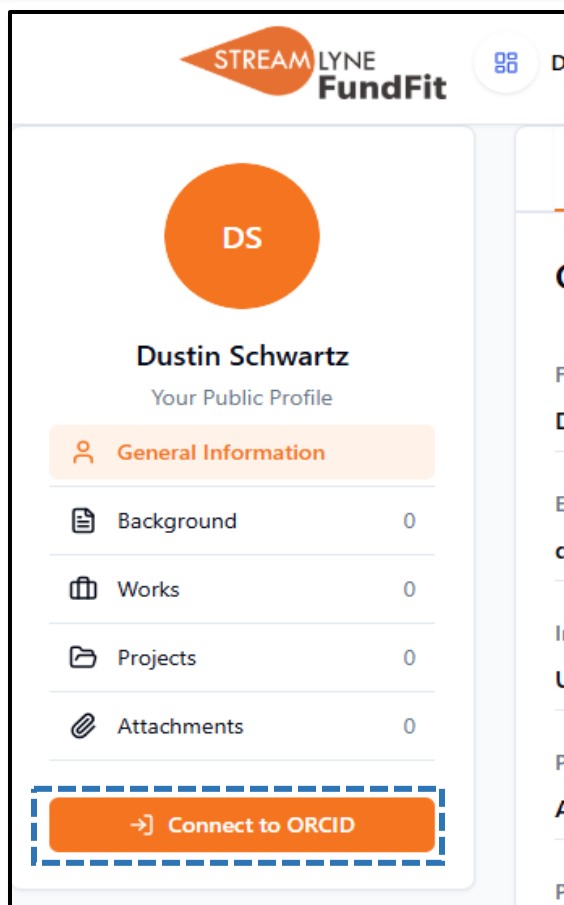

Once your profile loads, you can click on the orange **Connect to ORCID** button to start the process of linking your ORCID iD with FundFit.

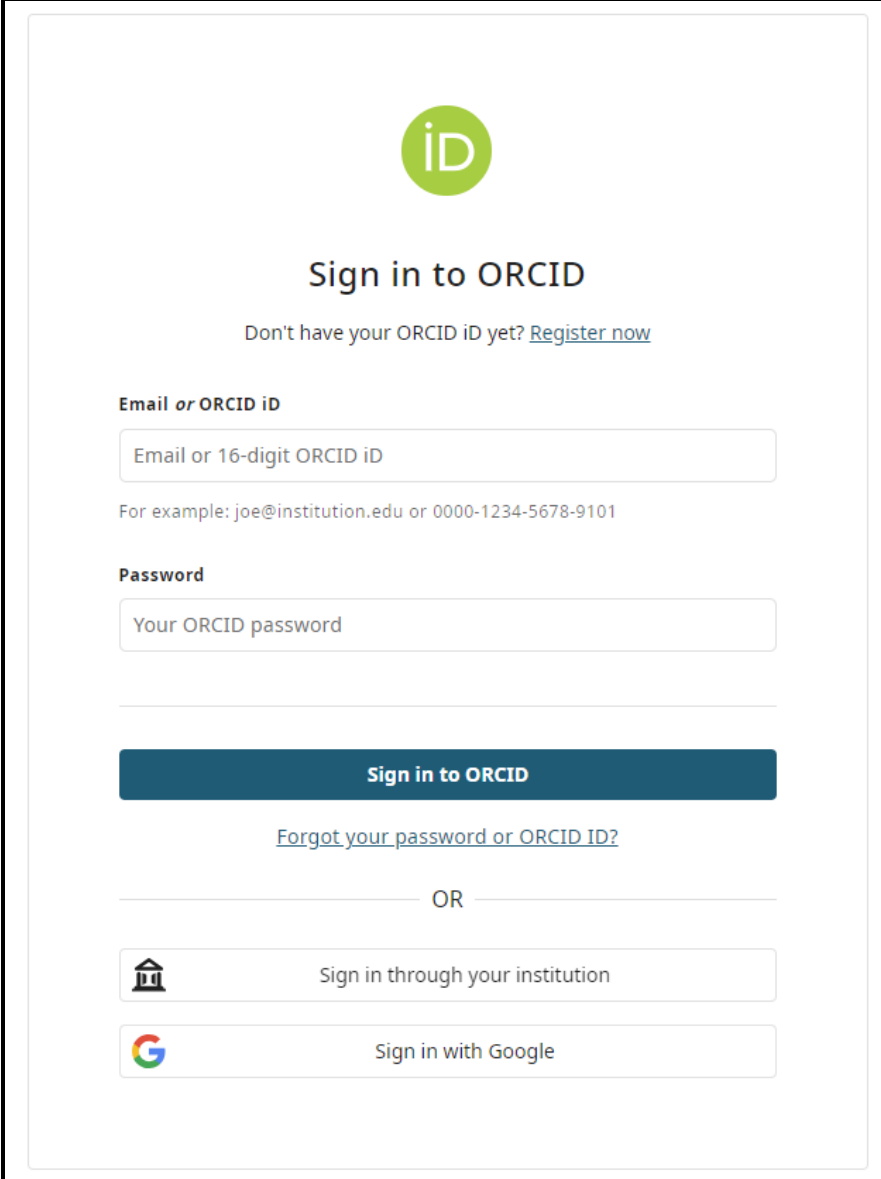

Additionally, you can click on each of the other sections of the side bar (Background, Works, Projects, and Attachments) to add these elements to your FundFit profile.

This is completely optional, but the more data that you provide the system, the better equipped it will be to deliver quality matches whenever you run a search as well as help others locate you when searching for potential collaborators on projects that align with your work and interests.

Once you're ready to connect to ORCID, clicking the button will navigate away from FundFit to ORCID's portal.

This should bring you to the login page for ORCID. Log in with your account and follow the prompts onscreen to link your account with FundFit.
